

7inch 4k 9M pole Video Inspection Pole Camera System

Main points

- * 9M telescopic water proof camera
- * camera : 23*53MM. IP68 waterproof camera
- * 7 inch 4K HD touch screen monitor
- *Adjustable lighting by white LEDs
- *Full HD photo/video recording
- *Storage in JPEG / AVI ,max 256 GB , default 128GB
- *9M Carbon fiber telescopic pole
- *Removable battery autonomy 6 - 8 hours *

APPLICATIONS

- 1) Examination of confined areas
(Building, industry, nuclear, oil)
- 2) Under water inspection, High reach inspection
- 3) Control of tanks and reservoirs
- 4) High voltage electrical stations
- 5) Inspection of boat hulls and bases, port structures

Detachable 7" touchscreen monitor for full control of all functions

Waterproof camera head

Specifications for The 4K waterproof Cameras Telescopic Pole Inspection System

Camera	HD80 /9m --- carbon fiber pole		
pixel	5MP 2560*1944Pix		
Light source	12pcs white LED light		
Min ilumination	0.001Lux/F1.2		
Video output	AHD		
Lens	3.6mm F1.2 (H)141° view angle		
Waterproof Rate	IP68		
camera size and weight	Ø23mm ,Length :53mm, flexible pole is 30cm.		
Carbon Fiber Telescopic Pole			
Material		Carbon fiber	
Unfold length		9m	
Lock down		By tightening rings	
Monitor mount		By screws, removable	
7" 4K Touch Screen Recording Monitor			
Screen Size		7"LCD touch screen	
Display Resolution		1280*800 px	
TP Structure		In-cell	
Sensing Method		Self Capacitance	
Recording Resolution		4k ,2K、1080P、720P、CVBS	
Photo		12MP、8MP、5MP、2MP	
Video Output		HDMI: 1080p	
Compression method		H.264	
video storage		AVI	
storage card		TF card 2GB-256GB	
language		Multiple Languages	
Voltage		DC :12V USB DC:5V	
power supply		DC 12V 2A	
lithium battery		5000mAh(37WH)	
Size & weight		L*W*H 21*14*2.3CM 600g
